### ATA Kidz 'n Power Safety Month

The ATA family has always kept the safety and protection of its members a top priority. And in an organization where a majority of the members are children, that commitment becomes even more important. This September 2007, ATA is taking a giant step in arming our communities with safer, more educated children by hosting open houses all over the country as part of the ATA

Kidz 'n Power Child Safety Month! During the month of September, Grand Master Lee is asking all ATA schools to help us fight the rising number of child abductions by educating parents and children in our local communities. Those attending these safety open houses will learn break away techniques, stranger warning signs, tips to deal with bullies and inter-

rived from Capture Studios. Please come pick yours up at the school. We are discussing a make up photo session day for the ones who would like an opportunity to be photographed.

#### **Back-to-School Testing!**

#### Membership Drive Update

net safety precautions as presented in the Kidz 'n Power safety education tools. ATA is launching the Kidz 'n Power program in partnership with the nationally known experts in child safety, **AMBERAlert.com**. As an organization focused on the spirit of family and community, we want to do our part to minimize the risk through the power of education.

# Marshall's ATA Opening in Krum

Marshall's ATA will be offering the "Karate for Kids" program at Ms. Rhonda's All-Star Gymnastics and Cheer located in Krum starting this Fall. Registration will begin August 21st from 6-8pm & August 23rd from 5-6:30pm.

We are very excited about beginning our program of teaching martial arts at Ms. Rhonda's in Krum and we look forward to a long lasting relationship with the center. We have found that the philosophy embraced at the gymnastics center is very much in line with the philosophies we embrace here at Marshall's ATA. Our program as you all know

will consist of a number of units designed to teach kids of all ages, courtesy, respect, coordination, memorization, social skills and the basics of Taekwondo. Our programs are designed with the thought that "Every kid is a winner" and "Every kid is special." The instruction that the children will receive with us will complement any current or future sport in which they choose to participate because of the special awareness of their body that comes from martial arts training. The Marshall's ATA Taekwondo program is our Basic program taught at our main location in

Denton.

## Talking Frog:

An 8 year old boy was walking down a country road when he saw a frog hopping across his path. He reached down picked up the frog and put it in his shirt pocket. After a while the frog poked its head out and said "I am a talking frog. If you will kiss me I will turn into a beautiful princess and grant all your desires." The boy ignored the frog and gently pushed its head back down into his pocket. Some more time passed and the frog again poked its head out and said "I am a talking frog. If you will just kiss me I will turn into a beautiful princess and grant all your desires." Again the boy ignored the frog and pushed its head back down. When the frog again poked its head out the boy interrupted it and said, "I am an 8 year old boy. I don't want a beautiful princess to appear and grant all my desires, I just want a Talking Frog."
